Yonezawa, T., 155

Subject Index to Volume 8

Acquired immunodeficiency syndrome (AIDS), ultrastructural findings in, 123
Anemone cell tumor, 369

Basement membranes in cancer, 291
Breast carcinomas with neuroendocrine differentiation, 225
Bronchial mucosa, human, atypical cilia in, 345
Bronchioalveolar carcinoma, ultrastructural of well-differentiated adenocarcinomas of lung with reference to, 177
Brown bowel syndrome, 357

Choroid, endothelial cells of, cytoplasmic structures in, 375
Chronic non-A, non-B hepatitis, unusual viruslike particles in, 191

Electron microscopy of cell cultures, contribution of, to classification of round cell sarcomas in children, 165
Enlarging incisional hernia, multicystic abdominal peritoneal tumor presenting as, 249

Foamy cells, three kinds of, in spleen, 13
Follicular large cell lymphoma, unusual nonimmunoglobulin-containing inclusions in, 71

Gastrinomas, human, G-17- and G-34-like immunoreactivities of, light and electron microscope localization of, 305
Glomerular IgA deposits, immunoelectron microscopic localization of, 43
Gonadotroph adenomas of human pituitary, ultrastructure of, morphometric evidence of sexual dimorphism in, 49

Hürthle-cell lesions of thyroid, 269

Islet cell tumor, crystals and alpha-1-antitrypsin-reactive globoid inclusions in, of pancreas, 319

Major salivary gland pleomorphic adenoma, histogenesis of, electron microscopic histochemical study of, 207
Medullary carcinoma of the thyroid gland, 25
Melanoma of soft parts, malignant, 57
Myoepithelioma of the breast, malignant, 1

Osteogenic sarcoma, human:
  alkaline phosphatase, fine structural localization of, 143
  hard tissue areas, fine structure of, 83
Ovary, spindle cell tumor of, 363

Papillary serous carcinoma with basophilic cytoplasmic granules, 115
Paragangliomas of head and neck, 333
Paratesticular tumor in 44-year-old male, 107

Systemic lupus erythematosus, concentric membranous bodies in hepatocytes from patient with, 241

Thyroid, amphricine—composite calcitonin and mucin-producing—carcinoma of, 197
Thyroid gland, Hürthle cell and mitochondrion-rich papillary carcinomas of, 131
Tubuloreticular inclusions and paired cisternae induced in human lymphocytes, 155
